Provider Profile

Information provided by the provider describing their agency:

I have been working with individuals with intellectual disabilities since 1988. Since 2002, I have worked as a Behavior Support Professional for a private provider agency. I hold a Master of Science degree in general psychology.

The bulk of my experience in providing clinical behavioral support services has been with adults with intellectual disabilities, many of whom have an autistic disorder or who are diagnosed with a mental illness. I am seeking to gain more experience providing services to children and families.

In my current employment, I provide clinical behavioral support services to about 50 individuals. I ensure compliance with Program Review and Human Rights committees for 100+ individuals.

In addition to providing clinical behavioral support services, I have extensive experience with conducting investigations of abuse/neglect. I also provide staff training, and participate in the intake and referral process.
